OVCE POLE SLAVIC UNIVERSITY

Experience playing for our local women's handball club

WHC OVCE POLE SLAVIC UNIVERSITY is a women's handball team currently playing in the First Super League and Pioneer's League in North Macedonia.

My experience playing for WHC OVCE POLE SLAVIC UNIVERSITY as a young person

"Since the age of the 6, I have been a part of this club under the same mentor Ilija Betovski. Being part of this club comes with unique feelings and challenges. First, there is the sense of togetherness and team spirit. Every player is part of a larger goal, where victories and defeats are shared among all. The fighting spirits in sports, especially in handball, comes from the constant dedication to improve oneself and the team. The only drawback is the need for financial resources."
Anastasija Sentovska

Training sessions are intense, requiring both physical and mental endurance, and matches demand quick reactions, strategy and courage.

This season we managed to place 2nd on the Super League table.
