

# Participation of youth in sports teams

## Experience playing for our local club OVCE POLE

### Who are we?

**OVCE POLE SVETI NIKOLE** is a basketball team playing currently in North Macedonian Third League. The team was founded in 1981. It's our local basketball club. Team colors are green and yellow. And our goal is to get into the Second Basketball League in our country.

### How the youth from Sveti Nikole participates/helps in sport clubs

- Even with the competitive spirit that comes with playing in a “grown” man’s league, the youth still manages to help out the old and experienced guys. Our

---

speed and agility helps us to be able to play and get considerable minutes on the court.

- The youth spirit is what gives energy! I'm not saying that we can do it on our own, of course we need someone more experienced who can give us an example so we "the next gen" can continue the local club and tradition that has existed for a while.
