

We're talking with the leader of the Youth Council in Sveti Nikole, Kristijan Nasevski.

Can you please answer some of our questions about this organization ?

What are your plans about the opening of the Youth Council?

-It's already in the procedure, there are still a few steps left, by the end of the year it must and will be established by the end of the year.

Which activities are planned to be undertaken?

-Primarily, to listen to the needs of young people. What are their needs? Through the Youth Council, they will be able to achieve their goals and needs. Maybe the local community implements projects that may be unnecessary for young people, through the Local Youth Council, they will be able to submit ideas and guidelines for their needs.

How many young people from your town will find themselves involved in it?

-Any young person between the ages of 15 and 29 is free to join, but there is a requirement to be a member of the Young Council. I personally encourage all young people to take part, as a young person I will only say that it is about the new generations, and to fight to create a better life for our society.

For what reasons the Youth Council in our municipality has not functioned so far?

-The Youth Council has not worked so far , I'm not that familiar with the reasons why, it only existed as a form but not in realization. Now learned from the past, together we undertook enthusiastic efforts to make it work in the best order.

What's the message you want to deliver?

-The message is clear. As young people we are the drivers of the world, and to create better conditions, for our voice to be heard, only if we join this initiative. It depends on us and how much effort we put into it!
