OVCE POLE

Experience playing for our local men's football club

OVCEPOLE is a men's football team currently playing in the Third Macedonian division in North Macedonia

My experience playing for OVCE POLE as a young person

"My dreams of playing football professionally started here in our small local club called Ovce Pole. I started at the age of 6 and played until 17, I spent whole 11 years here, but this winter I moved to a new club. This is all because here I our club there's a lack of equipment, the coach have been the same for almost 20 years and we didn't had new tactics and room for improvement. Ovce Pole is currently playing in 3rd division od macedonian football, they can't be promoted to 2nd division because they don't have enough money and also changing room.
